

Dr. Robert Wozniak graduated from the Nicolaus Copernicus Medical Academy in Krakow, Poland in 1989. His internship and residency in Internal Medicine were done at the St. Luke's Roosevelt Hospital Center in New York, NY, supervised by the Department of Medicine of the College of Physicians and Surgeons at Columbia University. The fellowship in Endocrinology, Diabetes and Metabolism was completed at Albert Einstein College of Medicine and Montefiore Medical Center, Bronx, NY.

Dr. Wozniak is board certified (1999) in Endocrinology, Diabetes and Metabolism by The American Board of Internal Medicine. He is also certified (1997) and recertified (2007) in Internal Medicine by The American Board of Internal Medicine.

The American College of Endocrinology certified Dr. Robert Wozniak by successfully completing the American Association of Clinical Endocrinologist accreditation for Thyroid Ultrasound and Ultrasound guided fine needle biopsy. He has also successfully completed the AACE Nuclear Medicine Course.

His professional associations include The American Association of Clinical Endocrinologists, The American Medical Association, The American Thyroid Association, The South Carolina Medical Association and The American College of Physicians. The Endocrine Society certified Dr. Robert Wozniak as a member of The Endocrine Society in recognition of meritorious work in Basic and Clinical Endocrine Research and Medical Education.

His publications are listed:

Hawkins M, Gabriely I, **Wozniak R**, Reddy K, Rossetti L, Shamon H. Glycemic control determines hepatic and peripheral glucose effectiveness in type 2 diabetics subjects. *Diabetes* 2002 July; 51(7): 2179-89.

Hawkins M, Gabriely I, **Wozniak R**, Vilcu C, Shamon H, Rossetti L. Fructose improves the ability of hyperglycemia per se to regulate glucose production in type 2 diabetes. *Diabetes* 2002 Mar; 51(3): 606-614.

Gabriely I, **Wozniak R**, Hawkins M, Shamon H. Troglitazone amplifies counter regulatory responses to hypoglycemia in non diabetics subjects. *J Clin Endocrinol Metab* 2001 Feb; 86(2): 521-8.

Gabriely I, **Wozniak R**, Mevorach M, Kaplan J, Aharon Y, Shamon H. Transcutaneous glucose measurement using near-infrared spectroscopy during hypoglycemia. *Diabetes Care* 1999 Dec; 22(12): 2026-32.

**Wozniak R**, Beckwith L, Ratech H, Surks MI. Maltoma of the thyroid in a man with Hashimoto's thyroiditis. Clinical case seminar. *J Clin Endocrinol Met* 1999 Apr; 84(4): 1206-9.

Guller S, **Wozniak R**, Kong L, Lockwood CJ. Opposing actions of transforming growth factors and glucocorticoids in the regulation of fibronectin expression in the human placenta. *JCEM* 80(11): 3273-8, 1995.

Guller S, Kong L, **Wozniak R**, Lockwood CJ. Reduction of extracellular matrix protein expression in human amnion epithelial cells by glucocorticoids: a potential role in premature rupture of the fetal membranes. *JCEM* 80(7): 2244-50, 1995.

Guller S, **Wozniak R**, Liebman MI, Lockwood CJ. Negative regulation of placental fibronectin expression by glucocorticoids and cyclic adenosine 3'5'-monophosphate. *Ann NY Acad Sci* 734: 132-42, 1994.
